

JHON TAILOR A.

SYSTEM ADMINISTRATOR

CYBERSECURITY ANALYST | THREAT DETECTION | RISK MANAGEMENT

I'm a cybersecurity analyst in training with a strong foundation in network defense, threat detection, and vulnerability assessment. Certified through the Google Cybersecurity Certificate and trained in computer science fundamentals via Harvard's CS50, I combine practical skills with a deep understanding of how to protect systems and data. Experienced in using Linux, SQL, Python, and basic SIEM tools, I'm passionate about securing digital environments and continuously developing my skills to stay ahead of evolving cyber threats.
